Within the last 4 years, Miami's illuminated skyline has attained international recognition. Through community efforts, the number of permanently lighted structures downtown has increased from 7 in 1986 to 26 at present. Across Dade County, this unprecedented growth in the use of lighting technology today enables us to expand our vision of tomorrow.

Imagine Greater Miami's skyline - visible from water, land, and air - vibrant with colorful, artistic lighting in its streets, on its tall buildings, with lasers and fireworks combined in a unified celebration of our cultural diversity. Visitors from around the world will stroll alongside residents through secure streets enjoying new vistas at each turn, and sharing the excitement of this setting of new **nighttime architecture**.

Your acceptance of this invitation marks **YOU** as one of our fellow visionaries. Join with **LIGHT UP MIAMI** in its effort to create such activities as "Friday Nights, Miami Lights," a regularly scheduled lighting spectacle to kick off our weekends in support of other community events. Let's create within Greater Miami **New Cities of Lights, Arts, and Festivals**.
