

May 1st, 2015

Dear Carlos,
Thank you for working with us.

Warner Bros. Pictures is producing a feature film that will have key scenes shot in Miami in May 2015.

Several scenes will be filmed at night. It is important for us to Light Up Miami so that the city shines in this production.

This movie stars Jonah Hill and Miles Teller and will be in theaters next year. Our night scenes are May 14th, 15th and 16th.

It is our firm belief that this highly entertaining film will draw many viewers and create new fans of Miami, contributing another boost to tourism.

We want both day and night scenes to showcase the beauty of our magic city.

Thank you very much. We appreciate your generous support of our local film industry.

Respectfully,

Beverly Visitacion
